

University of St Andrews - School of Medicine Handbook

MEDICINE READING LIST – 2024 / 25

Reading throughout all three years of the curriculum will be largely drawn from this list of books. The Medical School and the University library subscribe to a number of key eBooks which will be available online to all medical students. Our advice is to wait until you get to St Andrews before making decisions about purchasing, as some of these books are heavy! Note that the library only holds ~6-10 copies of each so it is recommended that students who prefer using physical copies consider buying their own copies in order to access the course literature in their own time. Additionally, most textbooks offer online resources that you can access using a code found within your purchased copy of the textbook.

If you do wish to purchase physical copies of certain textbooks, you should check that you are buying the most recent edition indicated below.

Authors	Title	Publishers	ISBN	eBook available	Link for eBook
