

## Wellcome Trust Doctoral Training Programme

### 4 month review information

For 4 month review for Wellcome Trust DTP students, students can base their review on their concurrent Wellcome Trust report.

The 4 month requirements as stated for all SoM PGR students can be interpreted by the Wellcome student as:

- a. The overall goals of your project (including a defined, testable hypothesis) [as per Wellcome Trust report]
- b. Background/literature review in the context of your project goals [expand on Wellcome Trust report, up to 4000 words]
- c. Planned experimental approaches [as per Wellcome Trust report]
- d. Anticipated outcomes [as per Wellcome Trust report]

Item b should be around 4,000 words. Items a, c and d together should be around 1-2 sides of A4.

Alternatively you can submit at the 6 month point in line with the requirements for the DTP if this works better.

The next report due is the University required report at 9 months.
