

## University of St Andrews - School of Medicine Handbook

### Medicine Reading List - Phase 2

Reading throughout the curriculum will be largely drawn from this list of books. The Medical School and the University library subscribe to a number of key eBooks which will be available online to all medical students. Note that the library only holds ~6-10 copies of each so it is recommended that students who prefer using physical copies consider buying their own copies in order to access the course literature in their own time. Additionally, most textbooks offer online resources that you can access using a code found within your purchased copy of the textbook.

If you do wish to purchase physical copies of certain textbooks, you should check that you are buying the most recent edition indicated below.
